

Deliverable D4.2 - D8

Youth inclusion self-assessment for sport organisations

Due date: 28 Feb 2026

Description:

The Online self-assessment toolkit was developed as part of the project Sport Inclusion and Empowerment of Young People with Diverse Background (SPIN Youth), co funded by the European Union. It was developed in conjunction with the project's overall objectives and goals, in this context empowering youth from diverse backgrounds as young leaders and promote inclusive sports environments is a key focus of the tool.

The self-assessment tool draws from practical learning across the SPIN Youth project and is designed as an easy-to-use tool for sports clubs and organisations to reflect together with young people on where they are now and where they want to progress towards.

Consent:

The young people who appear in the photo on the landing page are all Youth Coordinators linked to the SPIN Youth project and their consent was duly collected via a consent form.

Introduction

This self-assessment toolkit was developed as part of the project Sport Inclusion and Empowerment of Young People with Diverse Background (SPIN Youth), co funded by the European Union. It was developed in conjunction with the project's **overall objectives and goals**, in this context empowering youth from diverse backgrounds as young leaders and promote inclusive sports environments is a key focus of the tool.

The self-assessment tool draws from practical learning across the 3-year SPIN Youth project and is designed as an easy to use tool for sports clubs and organisations to reflect together with young people on **where they are now** and **where they want to progress towards**.

How to use?

The tool has 7 short sections and provides real time feedback to inform plans and practice. For each statement, select the option that applies. Scoring: Yes = 2, *Partly* = 1, No = 0. Use the **Generate SMART actions** button at the bottom to create your plan.

Please note, the self-assessment is anonymous. Your provided information is processed in real-time to generate your report and is not stored, saved, or retained on our server.
